## Discussion Prompts

1. Rapid response: what payment models have you used, explored, or thought about using?
2. Does anyone have experience transitioning from one payment model to another? What are some of the pitfalls to watch for?
3. Since we met, what milestone(s) have you reached? What helped you reach that milestone(s)? OR what are you still working on? What's on the horizon for the next few weeks?
4. Barriers or bumps so far?
